

# 2015 Anderson Flyers Spring Meeting Minutes

Date : 3/11/2015

The meeting was opened at 11am at the Club Flying Field

## Attendance

Sam Bach, Jim Barney, P.J. Beirne, Wayne Bond, Nick Grannan, Mike Harris Sr, David Jennings, Jason Jordan, Jeffery Kalebain, Gene Massey, Clyde Sparks, Jay Sponsler, Richard Szanti, Ed Tellman, Jim Winchel

## Discussion

LAST MEETING - A general review of last meetings minutes was completed.

CLUB MOWER - The mower was noted as being beyond repair and a replacement was needed. Dutch mentioned he has a mower of value that he's willing to sell for \$800. Funding possibilities for needed money was discussed such as a "garage sale" and or an assessment of members. Lacking a quorum at the meeting the assessment could not be voted on but it was decided a garage sale would be held in conjunction with our first Fun Fly. Proceeds from the garage sale would be contributed to the mower fund. Donations would also be accepted. After completing the Garage Sale and totaling those funds with any donations, the need for an assessment would be decided. Initial donations at the meeting were given with the total adding up to over \$100. Any further donations should be given to Gene Massey or mailed to the Membership Application address:

Anderson Flyers Treasurer  
4682 Bluejacket Road  
Cincinnati, Ohio 45244.

FIELD RUNWAY - The addition runway material must still be added to the field. Grass in the areas of application has been killed. We still need staples

and adhesive. We also need to "roll" the field to reduce the bumps and then finally install the sheeting. A workday will be scheduled when all is ready and announced via email. Volunteers will be welcome.

FIELD SAFETY - There was some concern presented over flying while sod workers are on the field. This was discussed and resolved in the past but some recent discussions with the field workers have raised the subject again. We concluded that Bill DeVore should broach the subject with Mr. Motz to insure we are not creating a future problem.

CLUB WEBSITE - We are presently attempting to redo our website to fix some of the concerns voiced in the past (communication between members, adding photos, adding meeting minutes, etc.). Jay Sponsler has been working on this and we hope to have something very soon.

CUB SCOUTS - There is no further information relative to a Cub Scout rocket launch day. PJ Daley will keep us up to date. (Followup - Cubs will use our field on Saturday, May 30 later in the day for their meeting. They would like to see us fly some planes as a demonstration, possibly at dusk. There may be some rocket flights. All of this still to be finalized.).

### December Meeting

Date to be established later.

### Adjournment

Meeting was adjourned followed by an afternoon of flying.

Submitted - Anderson Flyers Secretary, Richard Szanti
